

REMARKS

Applicants have amended the specification to give SEQ ID NO:s to sequences in need thereof.

Applicants submit herewith a Sequence Listing and a corresponding computer-readable Sequence Listing. The sequence information recorded in the corresponding computer-readable Sequence Listing is identical to the paper copy of the Sequence Listing. Support for all of the sequences listed in the Sequence Listing is found in the present application as originally filed. No new matter is believed to have been introduced by the submission of the Sequence Listing and the corresponding computer-readable Sequence Listing.

Applicants respectfully note that an amendment requesting entry of the Sequence Listing is found at page 2 of this paper, and that the sequence found at page 7, line 21, does not require a SEQ ID NO: because this sequence does not have 4 defined amino acids.

Applicants submit that the present application is ready for examination on the merits. Early notice to this effect is earnestly solicited.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
